EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 6 of the specification, line 1, the expression "(HEIDELBERG CASE NO. HDI 10243 "has been replaced by --10/667,558--, and the underline after the word "filed" has been replaced by --on 09/22/2003--.

In claim 15, last line, the word "electrograph" has been replaced by -- electrophotographic-- so as to correct an apparent oversight.

Applicant's election with traverse of Group I, claims 1-14 in the reply filed on 10-22-2004 is acknowledged. In view of the fact that claim 15 has been amended to require a deflector attached to the electrophotographic apparatus for blocking and deflecting air currents flowing through the gap similar to the requirement by independent claims 1 and 8 and upon reconsideration, the restriction requirement as set forth in the previous Office action is hereby withdrawn. Consequently, all pending claims 1-16 are under consideration.

Claims 1-16 distinguish over the prior art of record and are thus allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the requirement of a deflector for deflecting air currents flowing into a gap formed between a vacuum transport and a fuser

entrance guide away from the sheet in an electrophotographic apparatus. No prior art has been found to teach the use of such a deflector at this particular location.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
